BOOM TRUCK CRANE OPERATOR

Job Overview

Performance Roofing Systems is one of the leading commercial/industrial roofing contractors in the Midwest. We are looking for an experienced and talented Class A Commercial Boom Truck Driver and Crane Operator for our expanding commercial roofing company. This position is primarily for work within Wisconsin, however out of state travel may be required in surrounding states at a limited basis.

RESPONSIBILITIES

- Safely Transport and load/unload roofing materials to and from jobsites
- Safely operate all functions of crane including but not limited to setup, take down, securing and strapping liftable loads, lifting and setting loads within NCCCO guidelines
- Communicate with jobsite foreman, superintendents, general contractors for material and essential equipment placement
- Assist with roofing operations and details when needed

QUALIFICATIONS

- High school diploma, GED, or equivalent
- Minimum 3 - 5 years' experience operating 17-25 ton Crane/Boom Truck
- Current Certified Crane Operator (NCCCO) Certification
- Class A Drivers License with clean record
- Up to date and current Medical Card
- Strong work ethic, flexible schedule, and desire to perform quality work in a safe manner
- Ability to tolerate and perform duties in varying weather conditions (heat, cold, wind, rain, etc.)
- Proper load securement knowledge
- Previous experience in roofing, construction or related scope of work is a plus but not required
- Construction safety certification such as OSHA training are a plus
- Successful applicants will undergo a background check including drug screen and reference checks
